**WHAT IS GRAPPA?** It is the oldest and most traditional distillate of Northern Italy. It is obtained distilling the solid part of grapes: pomace. **On December 1<sup>st</sup>, 1973, Benito and Giannola Nonino create the single varietal grappa, Monovitigno® Nonino, distilling the pomace of Picolit grapes separately.**

**FERMENTATION** In purity in anaerobic environment in stainless steel vats, immediately followed by distillation to avoid harmful secondary fermentations.

**100% ARTISANAL DISTILLATION** Batch with head and tail cutting, in particular and exclusive copper steam stills renewed by Benito Nonino. Distillation takes place very slowly to give volatile components, responsible for the fragrances, the correct evaporation and consequent condensation preserving unchanged the precious organoleptic characteristics of the vine variety chosen.

**PRODUCTION** Strictly depending on the year's harvest.

**REST** From 6 months to a year in stainless steel containers.

**THE ART OF DISTILLATION HAS BEEN A PRIVILEGE  
OF THE NONINO FAMILY SINCE 1897**

**DECEMBER 1, 1973** Benito and Giannola Nonino revolutionize the method of producing and introducing Grappa in Italy and throughout the world. **They create the single varietal Grappa, Monovitigno® Nonino**, distilling the pomace of Picolit grapes separately and turn Grappa from Cinderella to a Queen of distillates!

**NOVEMBER 29, 1975** They establish the **Nonino Risit d'Aur Prize** (gold vine shoot) for the valorization of the rustic civilization and with the aim of stimulating, awarding and having officially recognized the ancient autochthonous Friulian vines and obtaining the Ministerial authorization to replant Schioppettino, Pignolo and Ribolla Gialla in order to preserve the biodiversity of the territory. In 1977 the Nonino Risit d'Aur Prize is joined by the Nonino Literary Prize and since 1984 it will be completed with the International Section.

**NOVEMBER 27, 1984** The Noninos mark a new turning point; they distill the whole grape and **create the Grape Distillate: UE®**. The Ministerial authorization for the production of Grape Distillates (D.M. 20.10.84) is granted following a specific request by the Noninos.

**NOVEMBER 15, 1989** The Noninos plant in Buttrio – Friuli – from initial 19 to 41 hectares of experimental vineyard with Fragolino, Merlot, Moscato, Picolit, Ribolla Gialla and Schioppettino grapes.

**APRIL 3, 2000** Cristina, Antonella and Elisabetta Nonino, after years of research, **create GIOIELLO®, the distillate of "Purity"**, the aquavite obtained from the distillation of pure honey.

**JUNE 2014** Grappa Nonino is taken as an example and icon of artisanal Grappa in "How it's Made", the documentary broadcast on the well known network Discovery Channel.

**1897 – 2017** 120 years of the Nonino Distilleries

**JANUARY 12, 2017** The **Nonino revolution** "from Cinderella into a market Queen", carried on by Giannola – the wife of Benito, the exceptional distiller – **is selected as a case study by one of the most influential academic reviews in the world, the London School of Economics (LSE) Business Review.**

**JANUARY 20, 2020** San Francisco, **Nonino is elected 'Best Distillery in the World' by Wine Enthusiast Wine Star Awards – Spirit Brand/Distiller of the year 2019**, the first Italian distillery and the only Grappa to be awarded the prestigious prize in Twenty years of Editions, the most important international award in the world in the wine and spirits sector.

## THE ART OF NONINO ARTISANAL DISTILLATION

NONINO BOTTLES EXCLUSIVELY GRAPPA AND DISTILLATES OBTAINED FROM FRESH PRIMARY PRODUCTS, DISTILLED 100% WITH ARTISANAL METHOD IN ITS OWN COPPER BATCH STEAM STILLS IN RONCHI DI PERCOTO.

**Distillation with Artisanal Method needs the presence of the master distiller** who controls the quality of the primary product batch by batch deciding times and methods related to distillation and how to perform at the right moment the cut of heads and tails selecting only the purest part of the Distillate: the heart.

The Nonino Distilleries, unique in the world, consist of Five Artisanal Distilleries, each with 12 copper batch steam stills, the result of innovation and the continuous research by Benito Nonino and respecting the tradition and the rhythms of craftsmanship.

**These stills, working 24 hours a day during the harvest period, allow distilling fresh pomace, grapes or fruit, sound and perfect, immediately after fermentation, at the same time of the harvest.**

The sensory involvement of the Master Distiller, together with his knowledge, experience and skills, are extremely precious elements that make the difference in obtaining a unique and unrepeatable distillate. A kind of knowledge that in the Nonino family has been handed down from father to daughter. Extracting drop by drop the organoleptic characteristics of the pomace, the grapes and the fruit used, each batch is a unique event.

La famiglia Nonino si occupa in prima persona dell'acquisto della materia prima e segue le varie fasi della distillazione per garantire la massima qualità del distillato.
