The Nonino family needs no introduction; it simply represents a point of reference for made in Italy distillation and one of the most solid excellences in its sector. A history of more than a century for the Friulian family, a true symbol of this ancient art. From the rich portfolio of the company based in Percoto in the province of Udine, we would like to mention La Riserva "dei Cent'anni" 14 Years ÜE. Since 1998, in order to celebrate the 100 years of distillation of the family, the Noninos select 4 barriques of "ÜE" Monovitigni (in 1984 the Noninos distilled whole grapes and created the Grape Distillate, "ÜE", a distillate in which, in one single operation, grape skin, pulp and juice are processed), from which they obtain this unique distillate. Amber, intense, limpid and inviting, to the nose it is complex and smooth, lively and complete with nuances of spices, saffron, cinnamon, curry, nutmeg and dried fruits and freshly shelled almonds with a wide and very persistent taste.
