GIFT PACKS NONINO 2026_2027

100% DISTILLED WITH TRADITIONAL METHOD

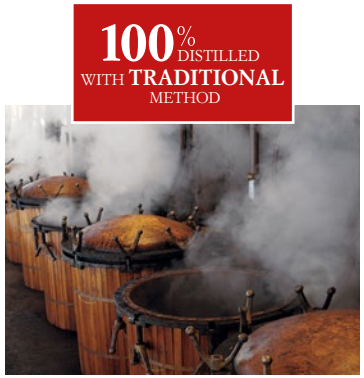

NONINO

Since 1897

DISTILLATION 100% WITH TRADITIONAL METHOD

The Nonino Distillery, unique in the world, consists of Five Distilleries, each with twelve copper batch steam stills, for the production of the inimitable Nonino Grappa and Distillates, respecting the Tradition.
The Nonino family personally takes care of the purchase of the primary products and monitors the various stages of distillation to guarantee the highest quality of the distillate.

ALWAYS NATURAL AGING

Since 1952 the Aging Cellars of the Nonino Distillery have hosted barriques and small casks made of different kinds of wood, under seal and permanent surveillance by the Customs and Monopoly Agency. Today, they boast 2.734 made of Nevers, Limousin, Grésigne, and ex-Sherry oak, as well as Acacia, wild Cherry, and Pear wood, which house the precious Nonino spirits: Grappa and ÙE®. Aged Grappas and Distillates are bottled after natural aging, without the addition of color additives.

NONINO
Distillers in Friuli since 1897

"...Through uncounted decades, grappa was little more than a cheap, portable form of central heating for peasants in northern Italy...
Fancier Italians, and most foreigners, disdained it.
But that was before the Noninos of Percoto came to prominence..."
R. W. Apple Jr.
The New York Times
December 31, 1997

1897 Orazio Nonino, the founder of the family, establishes in Ronchi di Percoto the premises of his own distillery which, until then, had existed only as an itinerant still assembled on wheels.

DECEMBER 1, 1973 Benito and Giannola Nonino, respecting the tradition, revolutionize the way of producing and introducing Grappa in Italy and throughout the World. **They create the single varietal Grappa, Monovitigno® Nonino,** distilling the pomace of Picolit grapes separately and turning Grappa from Cinderella into a Queen of distillates!

NOVEMBER 29, 1975 They establish the **Nonino Risit d'Aur Prize - Gold Vine-shoot** with the aim of stimulating, awarding and having the official recognition of the ancient autochthonous Friulian vine varieties that are dying out and obtaining the authorization of the European Community to replant Schioppettino, Pignolo and Tazzelenghe, later joined by Ribolla Gialla, in order to preserve the biodiversity of the territory.
In 1977 it is joined by the **Nonino Literary Prize** which will be completed with the International Section starting in 1984.
The Nonino Prize has anticipated the Nobel choices six times.

NOVEMBER 27, 1984 The Noninos mark a new turning point, they distill the whole grapes and **create the Grape Distillate, UE®.**
The Ministerial Authorization for the production of the Grape Distillate (D.M. 20.10.84) is granted following a specific request by the Noninos.

DECEMBER 4, 2003 The President of the Italian Republic Carlo Azeglio Ciampi awards Giannola and Benito Nonino the prestigious **Leonardo Prize for Italian Quality** for "the absolute Quality, Research and Innovation".

Since 2007 Antonella, Cristina and Elisabetta have believed, since 2007, in the versatility of the Italian distillate **creating the #BEBRAVEMIXGRAPPA movement,** making Grappa in cocktails known by mixologists all over the world and opening a new way for the entire category. Over the years more and more Italian and international bartenders have been inspired and have created wonderful cocktails with Grappa and Amaro Nonino as the protagonists.

JANUARY 12, 2017 The Nonino Revolution 'from Cinderella to a market Queen', carried on by the Noninos, is selected as a case study by one of the most influential academic magazines in the world: **the London School of Economics (LSE) Business Review.**

JANUARY 27, 2020 Nonino 'Best Distillery in the World' elected Spirit Brand / Distiller of the Year 2019 by Wine Enthusiast, the first Italian distillery and **the only Grappa to receive the prestigious prize in Twenty years of Editions.**

MAY 10, 2024 Cristina, Antonella and Elisabetta Nonino receive the prestigious **15th Guido Carli Award** for entrepreneurial merit, social commitment, and for bringing prestige to the Italian talent and genius in the world.
"[…] The ultimate novelty? Having made bartenders discover their grappa as a distillate for cocktails as early as 2000. For these reasons they are worthy of the Guido Carli Award".

AUGUST 8, 2024 THE TIMES, the most influential newspaper of the United Kingdom, honors **Benito Nonino: The 'father of Italian grappa'** who, with the family distillery, turned the poor relation of wine into a noble drink.

MAY 11, 2026
NONINO PRIZE 50 PARIS
More than Fifty Years for the enhancement of Rural Civilization.
Antonio Calbi, director of the Italian Institute of Culture in Paris, and **Giannola, Antonella, Cristina and Elisabetta Nonino celebrate Fifty Years of the Nonino Prize at the Italian Institute of Culture in Paris, featuring the values that have inspired and guided it for over half a century** establishing itself, over the decades, as an international reference awarding leading personalities in the field of thought and contemporary creation.
The **volume "Premio Nonino 50"** which tells the story of more than 50 years of the Prize was published.

#GrappaNonino

Photo Camilla Martini

Francesca, Cristina, Giannola,
Antonella and Elisabetta Nonino
in the distillery in Ronchi di Percoto

It is Grappa that turns into mixology, that blends, that becomes the soul of innovative cocktails without losing a shred of its nobility. […] #Bebravemixgrappa.

The Nonino revolution is complete. It is no longer just a spirit to be savored while relaxing in an armchair, but the star of a rediscovered sense of community.

It is Amaro Quintessentia that reinvents the great classics, challenging bartenders around the world to be bold. […]

If Toscani had taught us who they were, Altan and the magnetic presence of these women show us the path forward: a people who know how to drink well, who know how to laugh from the heart, and who aren't afraid to blend tradition with the purest joy.

This is not just a company: it is a laboratory vivid of meanings, where tradition and innovation continue to blend.

And perhaps it is precisely in this unstable balance, between authenticity and representation, that what truly sticks to us […] is ignited: **not just a taste, but a way of being together.**

Gianni Moriani
Messaggero Veneto, April 16, 2026

ALTAN.

LIMITED AND NUMBERED PRODUCTION

5 YEARS

100% DISTILLED WITH **TRADITIONAL** METHOD

0% ZERO **COLOR** ADDITIVES

LABEL TRANSPARENCY
0% COLOR ADDITIVES

We reject the addition of color additives to aged spirits—a common practice used to artificially give the spirit a more intense color, even though it is legally permitted.
On our labels, we state "0% color additives" and "100% distilled with traditional method" to protect consumers.
Claiming to have a distillery with batch stills is not enough to guarantee artisanal grappa, because many distillers purchase it from industrial distilleries, bottle it under their own brand (as permitted by law), and do not specify the production method.
Ours is an ethical and courageous choice to protect our admirers and the good name of Grappa.

GRAPE DISTILLATE
ÙE® [*Grapes in the language of Friuli*]

The Grape Distillate created by Benito and Giannola Nonino on November 27, 1984; it is obtained distilling grape skin, pulp and juice in a single operation. ÙE® contains the elegance of wine distillate and the character of grappa.

BORGO NONINO

IN SEARCH OF THE "SPIRIT"

GUIDED TOURS,
TASTING & BOUTIQUE,
HOSPITALITY & ROOMS,
EVENTS & CONVENTIONS

**Borgo Nonino is a complex consisting of 7 rural buildings,
the oldest of which date back to the age of Napoleon - used as aging cellars for Grappa, and Amaro under seal
– where it is possible to take the tour to visit the Distillery and the aging Cellars, followed by the guided tasting of
Grappa and Distillates to discover the story of the Family – Distillers in Friuli since 1897 –
who starting in 1973, with the creation of Monovitigno® Grappa,
have revolutionized Grappa turning it from "Cinderella into a Queen of international distillates".**

**Immersed in the Friulian countryside in Persereano,
Borgo Nonino is situated on the edge of 10 hectares of wood realized by Benito, with the essence of the Friulian wood,
and runs along the Alpe Adria Cycle Route which reaches the sea.**

Visits and tastings are open by reservation. At the Borgo there is also the boutique for purchases.
