

"...Through uncounted decades, grappa was little more than a cheap, portable form of central heating for peasants in northern Italy... Fancier Italians, and most foreigners, disdained it.
But that was before the Noninos of Percoto came to prominence..."

NONINO THE FAMILY THAT HAS MADE GRAPPA AN EXCELLENCE OF MADE IN ITALY IN THE WORLD

1897

Orazio Nonino, the family founder, establishes in Ronchi di Percoto the premises of his own distillery which, until then, had existed only as an itinerant still assembled on wheels.
Drawing taken from the Graphic Novel 'Ben, Noah's fourth son' 1997, and in 'Uomini ma straordinari' 2019, written and drawn by Altan

December 1, 1973

Giannola and Benito Nonino create the single varietal grappa, **Monovitigno® Nonino** that will revolutionize the world of distillation forever.

November 27, 1984

The Noninos mark a new turning point, they distil the whole grapes and **create the Grape Distillate, ÙE®.**
The Ministerial Authorization for the production (D.M. 20.10.84) is granted following a specific request by the Noninos.

December 4, 2003

The **President of the Italian Republic, Carlo Azeglio Ciampi,** awards Giannola and Benito Nonino the prestigious **LEONARDO PRIZE FOR ITALIAN QUALITY** for "the absolute Quality, Research and Innovation ... the Noninos are acknowledged as the true Ambassadors of Italian Grappa in the World".

MORE THAN FIFTY YEARS OF THE
PREMIO NONINO

1975

Searching for the ancient autochthonous Friulian vine varieties, to distil their pomace, the Noninos discover that the most representative – Schioppettino, Pignolo and Tazzelenghe – are dying out as their growing is forbidden.
Later they are joined by Ribolla gialla.
On November 29, **with the aim of "stimulation, awarding and having the ancient autochthonous Friulian vine varieties officially acknowledged",** thus preserving the biodiversity of the territory, **they establish the Nonino Risit d'Aur Prize – Gold Vine Shoot.**

1977

With the clear aim of highlighting the permanent topicality of Rural Civilization, they complement the Nonino Risit d'Aur Prize with the **Nonino Literary Prize** which, since **1984**, will be completed with the **International Section**.

NONINO is proclaimed **SPIRIT BRAND / DISTILLER OF THE YEAR 2019 by Wine Enthusiast Wine Star Awards,** the most important Wine&Spirits international prize in the world; it is the **first time for Italy and for Grappa** in Twenty years of Editions of the prize! 'The Italian Nonino awarded as the Best Distillery in the World. It is the first time for Grappa'. (IL GUSTO, la Repubblica)

WINE ENTHUSIAST WINE STAR AWARDS

May 10, 2024

Cristina, Antonella and Elisabetta Nonino receive the prestigious acknowledgement **15th GUIDO CARLI AWARD for entrepreneurial merit,** which is awarded to personalities who have distinguished themselves for their social commitment, their achievements in the entrepreneurial field, as well as for bringing prestige to Italian talent and genius in the world.

From the motivation:
*"[…] **The ultimate novelty? Having made bartenders discover their grappa as a distillate for cocktails as early as 2000.** For these reasons they are worthy of the Guido Carli Award".*

Since 2007

Antonella, Cristina and Elisabetta since 2007 have believed in the versatility of the Italian distillate **creating the #BEBRAVEMIXGRAPPA movement,** making Grappa in cocktails known by mixologists all over the world and opening a new way for the entire category. Over the years more and more Italian and international bartenders have been inspired and have created wonderful cocktails with Grappa and Amaro Nonino as the protagonists.

April 16, 2026

It is Grappa that turns into mixology, that blends, that becomes the soul of innovative cocktails without losing a shred of its nobility. […] #Bebravemixgrappa.
The Nonino revolution is complete. It's no longer just a spirit suitable for meditation to be savored while relaxing in an armchair, but the star of a rediscovered sense of community.
It is Amaro Quintessentia that reinvents the great classics, challenging bartenders around the world to be bold. […]
If Toscani* had taught us who they were, Altan and the magnetic presence of these women show us the path forward: a people who know how to drink well, who know how to laugh from the heart, and who aren't afraid to blend tradition with the purest joy.
This is not just a company: it is a laboratory vivid of meanings, where tradition and innovation continue to blend.
And perhaps it is precisely in this unstable balance, between authenticity and representation, that what truly sticks to us […] is ignited: not just a taste, but a way of being together.

More Than 125 Wears of Distillation with Traditional Method

The Noninos fully embody that "know-how" that comes from a kind of wisdom that is not only pragmatic, but also and above all ethical, from respect for the past and moderation in their actions today. The relentless pursuit of quality, the drive to innovate while honoring their roots, intellectual honesty in their work, generosity, moral rigor, fairness and loyalty, passion and determination, the joy of living, and the pleasure that comes from doing their job well: these are the values that inspire the family in its business.

DISTILLATION 100% WITH TRADITIONAL METHOD

–

The Nonino Distillery, unique in the world, consists of Five Distilleries, each with twelve copper batch steam stills, for the production of the inimitable Nonino Grappa and Distillates, respecting the Tradition.

–

The Nonino family personally takes care of the purchase of the primary products and monitors the various stages of distillation to guarantee the highest quality of the distillate.

ALWAYS NATURAL AGING

–

Since 1952 the Aging Cellars of the Nonino Distillery have hosted barriques and small casks made of different kinds of wood, under seal and permanent surveillance by the Customs and Monopoly Agency.
Today, they boast 2.734 made of Nevers, Limousin, Grésigne, and ex-Sherry oak, as well as Acacia, wild Cherry, and Pear wood, which house the precious Nonino spirits: Grappa and ÙE®. Aged Grappa and Distillates are bottled after natural aging, without the addition of color additives.

Sam Ross (New York) the creator of the Paper Plane

PAPER PLANE* - *Sam Ross, New York - USA*
Cocktail of the Year in 2025
Created in 2007 it joins the trinity of taste – sweetness, sourness, and bitterness – in a rare and irresistible harmony. Amaro Nonino is really what gives that unique and unmistakable touch: with its citrusy deepness, its herbaceous and musky notes, it makes the drink a complete sensory experience. Easy to prepare, iconic and perfectly balanced.
"I wanted people to discover ***Amaro Nonino****. It was so rich, deep, and mossy, with a body that no other bitter had. I had to find a way to get people to taste it."*

BORGO NONINO

IN SEARCH OF THE "SPIRIT"

Borgo Nonino is a complex consisting of 7 rural buildings,
the oldest of which date back to the age of Napoleon
– and are used as aging cellars for Grappa, Distillates and Amaro under seal –
where it is possible to take the tour for the visit at the Distillery
and the aging Cellars, followed by the guided tasting of Grappa and Distillates to
discover the story of the Family – Distillers in Friuli since 1897 –
who since 1973, with the creation of Monovitigno® Grappa,
revolutionized Grappa transforming it from
"Cinderella into a Queen of international distillates".

Immersed in the Friulian countryside in Persereano, Borgo Nonino is situated
on the edge of 10 hectares of wood realized by Benito, with the essence of the
Friulian wood, and runs along the Alpe Adria Cycle Route which reaches the sea.
–
Visits and tastings are open by reservation.
At the Borgo there is also the boutique for purchases.
